

IP Justification Form

Cari.net conforms to the North American IP Registry (ARIN) policies regarding IP address allocation. As part of our standard service, Cari.net will assign the amount of IP addresses that customers can justify for use on their equipment. Use this form for initial assignments as well as any additional IP addresses requested. We require a written justification form for any IP address blocks requested so that we can demonstrate to ARIN that IP addresses allocated to Cari.net are being used efficiently. Per ARIN guidelines (<http://www.arin.net/intro.html>), organizations will be assigned address space based on immediate utilization plus a three month and a six month projected utilization. Organizations must exhibit a high confidence level in their three month and six month utilization rate and supply documentation to justify the level of confidence. If you have any questions about the IP assignment policy or process, please refer to the IP Address Assignment Policy and Procedures, and RFC 2050 (<http://www.arin.net/rfc/rfc2050.txt>). The form for justifying IP use is provided below. Please complete the form and submit it to Cari.net sales via fax at 858-974-5091, or by postal mail. If you have any questions about filling out this form, please call us at 858-974-5080 ext. 132. Thank you.

Current number of IP Addresses:

Number of IP addresses from requested amount to be allocated now:

Number of IP addresses from requested amount projected to be allocated in six months:

Number of IP addresses from requested amount projected to be allocated in one year:

Note: If your organization already has IP space assigned, you must utilize 80% of those IP's before applying for more IP space.

Please use the space provided below to describe how you currently allocate your existing IP space (if any) and why you require the number of IP addresses requested above. Please note that equipment behind firewalls/routers do not require globally unique IP addresses (such as the use of "Network Address Translation" [NAT]). Please indicate whether you are already conserving address space using a form of NAT. If additional IP space is required for domain hosting, please indicate why you do not use "Name Based Virtual Hosting," such as SSL. If additional space is needed to explain your justification for IP addresses, you may attach an addendum to this form.
